

PSRH WORKSHOP 14 SEPT 2026 NUKU'ALOFA, TONGA

Pre-Invasive Disease of the Lower Genital Tract: Improving Capacity

Hands-on, supervised skills training in colposcopy, biopsy and treatment of pre-invasive cervical disease. Supports completion of Phase 3 of the IGCS Preinvasive Certificate Programme and is also suitable for clinicians refreshing procedural skills. Target participants: clinicians undertaking IGCS certification, specialists, and nurses/midwives involved in cervical screening.

Registration

PSRH Conference - Oxford Abstract
