

PSRH WORKSHOP 14 SEPT 2026 NUKU'ALOFA, TONGA

Perineal Repair and Obstetric Anal Sphincter Injuries (OASIS)

Obstetric Anal Sphincter Injuries (OASIS) and Perineal Repair Workshop A practical, full-day workshop focused on perineal tear repair, with optional advanced training in OASIS repair. Participants will develop hands-on suturing skills using anatomical models, supported by expert facilitation and brief teaching sessions. Target participants: obstetricians, trainees, midwives and clinicians involved in intrapartum care and perineal trauma management in Pacific health settings.

Registration
