Context and Research

- Pacific schools updated curriculum
 - competency based education
- 2024 identified need for updated simulation equipment

Research

- Significantly improves clinical skill acquisition
- Builds confidence
- Bridges gap between theory and practice

Implementation

- Establishing / upgrading simulation laboratories
- Procuring appropriate training equipment,
- Developing specific simulation scenarios for curriculum (34)
- 2024 Conference in Samoa
- 2025 Regional Workshop in Fiji

- Simulation
- OSCE
- Group problem solving
- Demonstrations
- Videos
- Peer teaching
- Reflective – journalling
- Debates
- Role plays
- In and classroom
- ...

Solomon Islands

IMPACT

- Skill Mastery
- Supporting critical thinking
- Increased confidence
- Students engaged in learning
- New Research

Simulation **M**idwifery **I**nnovation **L**earning **E**ducational

Thank You
